Company Overview

After its establishment in November 2014, Jeongseon Clean Deodeok Farm Union established processing establishments of Bonnet Bellflower Roots in May 2015. Currently, it has been contributing on local communities to produce jobs for the vulnerable. Also, it is chosen as a successor of forest industry in Jeongseon as well as the main company producing bonnet bellflower roots (deodeok). The company has been working hard to reinvest on local communities and provide social services to the local citizens.
