### Company Overview

Starting with mill operations in 2006, Jeong Nanum built a 264 m<sup>2</sup> factory in 2011 and moved to 1259 Jeongseon-ro, its current location. It is equipped with HACCP facilities and certified as a food safety management certification standard company by the Korea Agency of HACCP Accreditation and Services (KAHAS) on July 22, 2016. Using modernized and automated machine line facilities, we produce Jeongseon Surichi rice cake as our main item. In order to comply with hygiene and cleanliness requirements.

Above all and provide safe food to consumers, we conduct our own quality audit every six months and make utmost efforts through systematic and thorough controls and management beyond the levels of a common rural mill.

### History

**2011** Established

**2017** Won President Award (Farming cooperative corporate)  
Participated in numerous fairs (over 4 times every year)
