### Company Overview

Taeyeon Medical Co., Ltd. started as an orthopedic implant and medical device company in 2001. Since then, we have developed kyphoplasty technology for the first time in Korea and grown rapidly through sales in the domestic and overseas markets. Our key overseas buyers are located in Europe, Southeast Asia, and South America. In 2014, we established branch offices in Hanoi, Vietnam to increase exports in Southeast Asia working to develop the market in the region. Currently, we are expanding beyond the medical device business to include a line of healthcare products that utilize sonic wave vibrations. We are also focusing our efforts on developing new markets.
