### Company Overview

Since its establishment in 2016, the BJ Food Limited Agricultural Corporation has produced agricultural and livestock products and been working on the enhancement of national health by developing foods such as beef bone soup, ginseng chicken soup, sulfur duck boiled soup, beef boiled in soy sauce, and a variety of sauces, all based on food safety, quality, and hygiene.

In order to contribute to the national health with safe foods based on the company motto of 'open thinking, food safety, and customer movement,' we are committed to growing into a national food company through our taste, safety, and quality of foods.
