Company Overview

Making ceaseless efforts to research and develop with a spirit of creativity and challenge, Hongsam Farm C&C has been running a ginseng farm at the foot of Mt. Taegi in Hoengseong, Gangwon-do through two generations for more than 40 years.

In particular, we have been engaged in eco-friendly cultivation for more than 15 years and are now growing ginsengs based on organic certification. With a spirit of creativity and challenge, we finally launched Panax Berry made with ginseng fruits 15 times richer in saponin than red ginsengs in 2007. As the place of origin of ginseng, we, Gangwon Jinsam, will dedicate ourselves to keeping our pride with a spirit of creativity and challenge and guarding consumers' health.
