### Company Overview

Gamro700 Inc. agricultural company is located in a mountainous area at an altitude of 700m above sea level in Wangsan-myeon, Gangneung-city, Gangwon-province, the origin of Korea's sweet dew tea (for place of origin, refer to Naver Green Window/Gamro Tea/Encyclopedia). The company owns 99,000 m<sup>2</sup> of sweet dew tea plantation, running a three-generation family business for 45 years.

Produced by grass planting and natural farming methods that maximize active ingredients by letting the plant compete through no pesticide use and non-chemical weeding, we have acquired pesticide-free certification, organic farming certification, organic processed food certification, and GAP excellent agricultural product management certification. We have been recognized for our technology of manufacturing and processing (manufacturing patent registered) to be certified as a venture business and rural convergence industry (sixth industry: cultivation as 1st, manufacturing as 2nd, and distribution as 3rd) operator by the government.

In addition, we have obtained various overseas certifications such as ISO22000, FSSC22000, KORSH-ER, Halal, US FTA, Vietnam FTA, and Thailand FTA.

### History

Since the 1970s when the company began to cultivate sweet dew tea (hydrangea tea), we have been operating the business, over 40 years and three consecutive generations. We run our own Gamro 700 store in Lotte Department Store, supply to large stores nationwide such as Homeplus, Hanaro Club, and E-Mart, and export to China, Vietnam, and the United States.

### Performance

- Domestic: Organic processed food certification, organic farming certification, pesticide-free certification, GAP excellent agricultural product management certification, rural convergence industry certification (sixth industry), venture business certification, and patent registration
- Overseas: ISO22000, FSSC22000, Halal, KORSHER, US FTA, etc.
