Company Overview

Doomehyang Herb Tea is a specialized manufacturer of healthy herb tea by cultivating pesticide-free domestic herbs.

We continue to conduct research and manufacture healthy herb tea with appealability in terms of taste and scent containing ingredients beneficial to the human body including domestic flower tea, one-hundred medicinal herb tea, dendranthema tea and mugwort tea. Based on the HQ located in Hoengseong, we are expanding our branches nationwide and growing into the company that educate, experience, manufacture and sell herb tea.

In October 2018, we relocated our factory and academy from Wonju to Hoengseong for business expansion and then started cultivating our own flowers, medicinal plants and herbs. Now we provide education and manufacture and sell products.

In particular, we offer many special lectures on ferment vinegar and traditional tea made with various medicinal ingredients as well as the existing herb tea, and we also operate Doomehyang Herb Tea Instructor Courses (Levels 1 and 2) and Consultant Program. We have received grand prize of Korean Food Fair Award in 2017, 2018 and 2019.
