Company Overview

Established in May 2006, N-care, Inc. is a medical device company specializing in producing physical therapy equipment.

After years of research, we have developed the Korea's only paraffin bath used at hospitals. We are also making different models from household products to large-capacity products for hospital use based on various patent technologies.

In order to achieve the highest quality, we have been designated as a promising small-and-medium-sized exporter with the constant efforts, and are continuing our active business services until today.
