Company Overview

Kikeunnamoo considers children's health its top priority, so manufactures wooden toys, wooden furniture, and wooden accessories using environmentally-friendly wood free of environmental hormones and other harmful substances. In addition, it has a CNC router, which enables a variety of wood processing, and develops new products with custom-made and differentiated designs.

Performance

- Retinispora Toy Car Selected as '2014 Hit 500 Product' by the Small and Medium Business Corporation
